

LIQUID GOLD

NESCHEN® Accu-Coat Liquid Laminators

Neschen Accu-Coat liquid laminators can make your digital graphics more durable and more profitable. With industry-leading coating technology, production capacity and ease of use, these machines are truly the gold standard in liquid laminating.

Take the 60-inch AC1600 for example; it features automated roll-to-roll coating up to 5 fpm, available variable coating thickness up to 1.1 mils, automatic liquid feed, infrared curing and fast-access cleaning.

The super wide 129-inch AC3300 goes even further with simultaneous dual media feed and speeds up to 7 fpm. And with Neschen UltraCoat aqueous clear coats, you can add years of durability to applications ranging from fleet graphics, to giclee, to signs, banners, billboards and more, for only pennies per square foot!

Find out how easy and profitable it is to own a Neschen Accu-Coat liquid laminator. Call 866-515-4241 (reference code DOLQL7) for a free ROI analysis. www.GetNeschen.com
